ABOUT US

Andrew + Annette Tate form the young husband/wife team of **28:20 films**, based out of Cincinnati, Ohio. Our goal is to tell your story with a creative, natural style. Your wedding film should entertain you, it should give you chills, but most of all — it should have depth. So we'll incorporate both the beautiful AND silly moments of your day, your own voices, and some of your own song choices, to help tell your beautiful story of life + love.

Please visit us @ www.2820films.com for more information, to view film samples, or to inquire about availability. We'd love to be a part of your story!
